

ADDENDUM NO. 2

---

The following items shall become a part of the Construction Documents for the referenced project dated November 14, 2016.

Manufacturers approved by this Addendum shall not be relieved of the responsibility to comply with the project specifications, or the manufacturers standard specifications and accessories supplied with the item specified.

**DRAWINGS:**

**ABILENE ELEMENTARY:**

1. SHEET A-2.2 FLOOR PLAN and A-5.2 INTERIOR ELEVATIONS
  - a. At each of the two new classrooms, delete the 94" diagonal Smart Board and 8' Marker Board and replace with a single 16' long Marker Board with LCS<sup>3</sup> surface by Clairage Products (or approved equal) for projection uses with steel backer sheet for magnetic visual aids.
2. SHEET A-4.1
  - a. On plans 1, 2 and 3 for the multi-user restrooms, change the rear grab bar in the handicap toilet stall to be TA-14.
  - b. On the Toilet Accessory Schedule, change the TA-14 grab bar to be 24" in length.
3. SHEET P2.1
  - a. North Wing Toilets: Existing chase behind new urinals shall be used for routing new piping and carriers. Piping shall be concealed.
  - b. North Wing Toilets: Existing wall behind the new lavatories may be used for mounting fixtures in lieu of carriers within wall.

**WEST ELEMENTARY:**

1. SHEET A-2.2 FLOOR PLAN
  - a. At AREA C plan, indicate Keyed Note 1 for 2" building expansion joint cover at doors 03, 04 and 08 at the head and jamb conditions.
  - b. At Boys Restroom 301, add a 3 5/8" metal stud at 16" o/c furring partition behind the urinals at the north wall to conceal piping and urinal carriers. Sheath studs with cement based tile backer board.
2. SHEET A-2.2 FLOOR PLAN and A-5.2 INTERIOR ELEVATIONS
  - a. At the new classroom, delete the 94" diagonal Smart Board and 8' Marker Board and replace with a single 16' long Marker Board with LCS<sup>3</sup> surface by Clairage Products (or approved equal) for projection uses with steel backer sheet for magnetic visual aids. Provide an 8' long Marker Board with LCS<sup>3</sup> surface in the new Conference Room.
3. SHEET A-4.1
  - a. On plans 1, 2, 3 and 4 for the handicap toilet stall show a rear grab bar 24" in length on the back wall. Change the note for the grab bar from TA-13 to TA-14. Note Staff Restroom 300 rear grab bar is to remain TA-13 and 36" long. Reference the interior elevations.
  - b. On the Toilet Accessory Schedule, change the TA-14 grab bar to be 24" in length.
4. SHEET P2.1
  - a. Area B Toilets: A furred wall at the urinals will be added for installation of carriers and piping for the new urinals.
  - b. Existing walls behind new lavatories may be used for mounting fixtures in lieu of carriers within the wall.

**WHEATLAND ELEMENTARY:**

1. SHEET A-2.2 – FLOOR PLANS
  - a. On Area A, indicate an interior expansion joint cover with keyed note 1 on masonry block wall near section cut 10/A3.2. Indicate another wall expansion joint cover keyed note 1 on the opposite metal stud wall near the tube steel column adjacent to door mark 11. Indicate an exterior control joint opposite of the tube column. The ceiling expansion joint between existing and new construction is indicated on wall section 1/A-3.3. Floor expansion joint covers are not required.
  - b. On Area B, indicate interior expansion joint covers on either side of doors mark 14 between the existing building and the new precast wall. This closure partition is to be partition mark 7. Also indicate partition mark 7 at the downspout furring in Multi-Purpose Room 206.
2. SHEET A-2.2 FLOOR PLAN and A-5.2 INTERIOR ELEVATIONS
  - a. At each of the three new classrooms, delete the 94" diagonal Smart Board and 8' Marker Board and replace with a single 16' long Marker Board with LCS3 surface by Clairage Products (or approved equal) for projection uses with steel backer sheet for magnetic visual aids. Provide an 8' long Marker Board with LCS3 surface in the existing Conference Room.
3. SHEET A-2.4 – FINISH PLANS
  - a. At Area B, at the existing Vestibule, indicate the vinyl floor tile from the new corridor to continue into the existing vestibule.
4. SHEET A-4.1
  - a. On plan 1, for the handicap toilets, change the rear grab bar TA-13 to TA-14.
  - b. On the Toilet Accessory Schedule, change the TA-14 grab bar to be 24" in length.

**INTERMEDIATE SCHOOL:**

1. SHEET C-10.0 CIVIL SITE PLAN
  - a. Extent of 4" Sanitary Sewer service line extension to the east is not known until excavation exposes line.
2. SHEET A-2.2
  - a. On the Floor Plan Area A, indicate a floor expansion joint cover at doors mark 03. Reference specifications.
3. SHEET A-2.2 FLOOR PLAN and A-5.2 INTERIOR ELEVATIONS
  - a. At each of the four new classrooms, delete the 94" diagonal Smart Board and 8' Marker Board and replace with a single 16' long Marker Board with LCS3 surface by Clairage Products (or approved equal) for projection uses with steel backer sheet for magnetic visual aids.
4. SHEET A-4.1 ENLARGED PLANS
  - a. On plans 1, 2, 3, 4, 5 and 6 for the handicap toilet stall change the note for the grab bar from TA-13 to TA-14. Reference the interior elevations.
  - b. On the Toilet Accessory Schedule, change the TA-14 grab bar to be 24" in length.
5. SHEET A-5.1 INTERIOR ELEVATIONS
  - a. Replace the Typical Tile Pattern drawing with the elevation and tile list attached to this Addendum.
6. SHEET A-6.1 REFLECTED CEILING PLAN
  - a. On Reflected Ceiling Plan Area A, indicate a ceiling expansion joint cover at the head of double doors mark 03 leading into the storm shelter.

**MIDDLE SCHOOL:**

1. SHEET A-2.2 – FLOOR PLAN
  - a. At the west end of doors 01, indicate an exterior expansion joint cover, see 14/A-8.1 for similar condition.
  - b. At doors mark 03, indicate a floor expansion joint cover, reference specifications.
2. SHEET A-2.2 FLOOR PLAN and A-5.2 INTERIOR ELEVATIONS
  - a. At each of the four new classrooms, delete the 94" diagonal Smart Board and 8' Marker Board and replace with a single 16' long Marker Board with LCS3 surface by

Clairage Products (or approved equal) for projection uses with steel backer sheet for magnetic visual aids.

3. SHEET A-5.1 INTERIOR ELEVATIONS

- a. Replace the Typical Tile Pattern drawing with the elevation and tile list attached to this Addendum.

**SPECIFICATIONS:**

1. SECTION 06.41.00 ARCHITECTURAL WOOD CASEWORK

- a. Part 2 Products. Add Keyboard Tray by Intellaspace; Cobra #26057 keyboard arm and SlimForm 19, #26285 keyboard tray at two locations under Reception countertop at West Elementary and Wheatland Elementary.

2. SECTION 10.14.00 – SIGNAGE

- a. Part 2, Products, Item 2.02, Metal Cut-Out Letters, #4. Change the letter size to 12". Exterior metal letters will be required for West Elementary and Wheatland Elementary buildings only.
- b. Part 2, Products, Item 2.03. Delete this paragraph.
- c. Part 2, Products, Item 2.04. A total of 2 building directories will be required for each building. (Abilene, West, Wheatland, Intermediate, Middle) Graphic plan of building will be supplied by the Architect.
- d. Part 2, Products, Item 2.05. Delete specifications paragraph. Wall Graphics will be required for the Wheatland Elementary building only. Refer to sheet A-2.4 for manufacturer, product description, and size. Reference the composite building plan that was issued with Addendum 01 for locations.
- e. Part 3, Execution, Item 3.03. Quantities listed in the specifications are for Wheatland Elementary only. Provide signage for each building for any new spaces or remodeled spaces with appropriate signage types (Type A at classrooms and offices, Type C, Type D, or Type E at restrooms) as listed below. If Owner elects to change out other signage at a future date, a proposal request will be made and adjustments to contract price made by change order.

**i. ABILENE ELEMENTARY**

1. Type A – 2
2. Type C – 3
3. Type D – 3
4. Type E – 4
5. Type J – 1

**ii. WEST ELEMENTARY**

1. Type A – 4
2. Type B - 2
3. Type C – 3
4. Type D – 3
5. Type E – 2
6. Type J – 1

**iii. INTERMEDIATE SCHOOL**

1. Type A – 6
2. Type B - 1
3. Type C – 4
4. Type D – 4
5. Type E – 4
6. Type I – 1
7. Type J – 1

**iv. MIDDLE SCHOOL**

1. Type A – 5
2. Type B - 1
3. Type E – 4
4. Type I – 1
5. Type J – 1

- f. Part 3, Execution. See enlarged copy of the signage sample page.
- 3. SECTION 23.09.00 INSTRUMENTATION CONTROL FOR HVAC
  - a. Wheatland Elementary currently has a Trane control system. Trane controls shall be included in the base bid for Wheatland Elementary School.
  - b. Alternate Control Bid for addition of the 4 rooftop units at Wheatland shall be controls as manufactured by Dynamic Controls/Automated Logic.

**CLARIFICATIONS:**

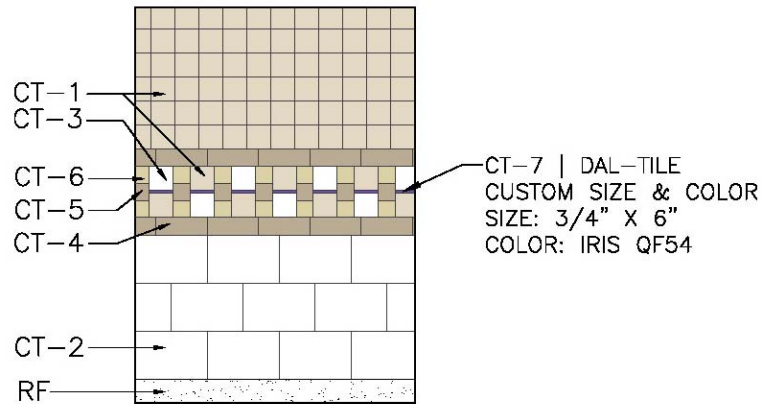

- 1. Ceiling projector mount to be Classroom Technology Solutions AVM-PRO-DCP-UNV-202-WH or approved equal. (ctsed.com)
- 2. Add a note to each building Finish Schedule to indicate that all wall, floor and ceiling finishes shall meet the flame and smoke development criteria of IBC Chapter 8.
- 3. Electrical Contractor shall provide and install (1) Cat 6a cable between teacher's desk (plan note 10) and the USB drop shown below the marker board. Typical all new classroom additions at all schools.
